

## 8.1 CASH DASH!

**Objective:** Solve problems using addition.

### Instructions

1. Put some play money or small change (10p, 5p, 2p, 1p pieces) in a tub and place it some distance away from your starting point
2. Run to the money, take a coin and bring it back
3. Repeat twice more so you have 3 coins altogether, When you get back add the three amounts together and note it down
4. Continue until all the coins have been collected and added in sets of 3.

### Challenge

Can you add two of the 3-coin totals together?
