

Red Class News

Friday 28th June 2019

It has been another great week in Red Class, we have been busy sorting out our Mazey Day fish models as well as learning about our new animal habitat deserts. In maths we have been working hard to halve numbers of objects. It's all very exciting for the children as they are readying themselves for life after Red Class. Thank you for your patience and cooperation with the change of parent pick up point in school. The children have responded really well to this.

Mazey Day information

It is finally here! The children are all very excited and have been spending the last two weeks making their rattling fish. If you are taking part in the school parade our parade start time is 1pm. The dress theme is green and/or blue to represent the ocean. We all look forward to seeing you there!

Parent's day

Thank you for your responses regarding Parent's day on the 8th July. I have allocated a number of appointment slots for the day and where possible have tried to combine it with siblings. If your child has a sibling in school could you please let either myself or their sibling's teacher know so we can coordinate time slots as best as we can.

Thank you

Library books

Over the course of the next week we will be endeavouring to take the children into the library to change their books. This time of the year requires a degree of flexibility so we ask if your child can have their library book ready to be swapped at all times as we cannot predict which day we will be able to change it at this stage. Thanks

Warm weather information:

As the weather is getting warmer, we are explaining to the children how to stay safe in the sun. To assist with this could you please check that your child has a hat in school, a named water bottle and their own sun cream. The vast majority of the sun creams we have in school do have names on but there are several that don't and in this instance we cannot apply sun cream to children if the bottle has no name on.

Maths weekend challenge:

Can you find 8 objects and split them in half?

Weekend challenge:

Can you tell a grown up a fact about the jungle and desert habitats?

Have a lovely weekend,

Mr Savage, Miss Graham, Mrs Rudlin and Miss Reeves.
