

**Step
15**

Fractions of a Whole

I can use equivalence to show any simple fraction

Remember To:

- look carefully at the denominator of the fraction you have to shade
- 'see' the shape equally divided in this way
- shade the correct fraction carefully
- record the equivalent fraction from the pre-divided shape

Write The Equivalent Fraction Sentence

Shade $\frac{1}{3}$

=

.....

Shade $\frac{1}{2}$

=

.....

Shade $\frac{1}{5}$

=

.....

Shade $\frac{1}{3}$

=

.....

**Step
