

SEND at Heamoor Primary School

Area of Need	Indicators	School Response
Communication	Significant receptive and /or expressive language difficulties recognised by a speech and	Teaching of specific speech sounds and language concepts following advice from the Speech Therapist.
and	language therapist that impair the child's ability to communicate effectively, understand language and	Language learning facilitated by signing, non- verbal systems, visual prompts and modelling
Interaction	participate independently in the classroom. A specific speech and language disorder where development deviates from the expected pattern	Differentiated and supported tasks in class. Flexible use of in class grouping strategies and adult support.
	and pace of normal development. Difficulties with social interaction, social communication and social understanding in all contexts. The child may be socially vulnerable, withdrawn, anxious or prone to aggressive outbursts with a tendency to focus on their own choice of activities and have a limited imagination. Child has a medical diagnosis of autism or another pervasive developmental disorder often with associated sensory processing difficulties.	Language modified and simplified with instructions repeated and explained as required to ensure understanding. Well defined routines and a structured and organised environment. Strategies and equipment to reduce anxieties such as ear defenders. Direct teaching of specific social interaction skills and the social use of language Social stories/Individual work station/Visual timetables/planner. Communication Passports to support transition from class to class and setting to setting. Sensory diet as recommended by the Occupational Therapist. Lego Club sessions. Time to Talk sessions

Area of Need	Indicators	School Response
Cognition and	Attainment in basic skills significantly delayed so as to interfere with the child's ability to make	Highly differentiated and supported tasks in class. Clear marking and feedback with next steps learning.
Learning	progress. Cognitive attainment levels and rates of progress which are significantly below that of the child's peer	Smart targets on Personal Learning Plan. Individualised programme of learning with intervention that is additional and different from those provided as part of the school's usual
	group. Progress is slower than expected despite relevant and purposeful action being taken by the school. Learning difficulties which affect independent access to the curriculum. Identified specific learning difficulty that is significant and persistent.	differentiated curriculum. Flexible use of in class grouping strategies and adult support. Provision of additional resources including ICT. Pre-teaching of new concepts. Revision and over-learning of basic skills. Test concessions.

Area of Need	Indicators	School Response
Social,	Medically diagnosed condition that affects the child's learning and well- being.	Learning Mentor employed with a dedicated space for SEMH work (Rainbow Room)
Emotional and	Evidence of poorly developed social skills, isolation, withdrawal from peer group and problems with	Safe secure routines and a predictable environment. Social skills groups such as Nurture Group, The Pod, Breakfast Club & Lego
Mental	making and sustaining relationships. Evidence of significant unhappiness, anxiety, stress	Club. Flexible use of in class grouping strategies and adult support.
Health	and /or disaffection over a sustained period often accompanied by prolonged periods of absence.	Peer and adult mentoring and counselling. CHALK Counsellor employed by the school.
	Sustained and serious self-injurious behaviour. Personal, social and emotional development that impedes progress and attainment or affects the learning environment in the groups in which they are taught. Displays of inappropriate behaviour which are significantly different from the majority of the child's peers. Behaviours displayed are of high intensity, duration and frequency and are not ameliorated by behaviour management techniques usually employed in school.	Anger management talk time. Draw and Talk sessions. Lego Club. Home school communication book/Book of Awesome. Individual reward charts agreed with parent and child. Behaviour Plans agreed with parent and child. Class and group Circle Time. Strategies recommended for Attachment difficulties. PACE strategies employed by all staff (Playful, Accepting, Curious, Empathetic) Attendance clinics. Use of outreach or in house placement at Alternative Provision Academy.
