

# Red Class News

Friday 21st June 2019

This week we have been looking at our latest habitat—polar. This has involved us talking about what the Arctic and Antarctica are like as places and which animals can survive there.

In maths we have moved from our addition focus to a subtraction one and the children have been fantastic all week at showing how they can write accurate number sentences.

## New collection arrangements

As of Monday (24th) there will be a new system of collection for Red class children. The time to collect will still be 3pm but instead of collecting your children at the classroom door as before the children will be brought around school by the Red Class staff and passed over individually. This will take place at the large gates on the other side of the school. Please see the school picture to see exactly where this is. The red line is the route the class will walk towards the gate (red circle). This is part of our preparation for Year One. Thank you for your patience and cooperation.

Thank you for all of your Mazey Day bottles. The children have really enjoyed creating their fish with Mrs Rudlin and can't wait to show them off at the parade next week!

## Maths weekend challenge:

Can you solve the number sentence  $9 - 6 = ?$

Special challenge: Can you write the number sentence  $\_\_ - 5 = 5$  and tell a grown up the missing number?

## Writing weekend challenge:

Can you tell a grown up 3 ways in which we can be kind to each other at school?

Have a lovely weekend,

Mr Savage, Miss Graham, Mrs Rudlin and Miss Reeves.
