

**Step  
29****Subtraction**

I can subtract with 3 digit numbers

**Remember to:**

- show the gap from 100 to the target number on a number line
- jump to 100 by taking 1 off the target number's hundreds digit

**1**

**Pim has 672 sweets. He gives Pom 100 of his sweets. How many sweets does Pim have left?**

**2**

**Pom went to the shop with £788. He bought 3 games for £70. How much money does he have left?**

**3**

**Mully took away 90g of wood from the weighing scales. He started with 332g. What is the weight on the scales?**

**4**

**Pim poured 60ml of water out of his jug. He started with 550ml. How much liquid is in the jug?**

**5**

**What is the difference between 972 and 200?**

**Step
