

Science Homework Grid

Remember to stay safe when experimenting and ask an adult to help you.
Send the pictures of your experiments and work via Dojo to your class teacher!

Class	Read it!	Write it!	Draw it!	Do it!
Red Orange Yellow Classes	Read a book (or ask an adult to read it to you) ALL about animals: https://readon.myon.co.uk/library/browse.html?category=33	Complete the Do It! experiment and write down your findings	Draw a picture of the animal you read about. Can you make it look realistic?	Peel the label off a bottle of lemonade so you can see the liquid. Put raisins into the bottle. Watch what happens!
	30 minutes	30 minutes	30 minutes	30 minutes
Green Blue Indigo Violet Classes	Read about the different names for the moon on Newsround: https://www.bbc.co.uk/newsround/51047406	Write about the animal you have created. Include information about its habitat, diet and behaviour	Create your own animal. Think about how it moves, where it lives and what it eats. How does this affect how it looks (e.g. type of teeth, size of limbs)	Complete one of the amazing experiments from the STEM website (separate PDF)
	30 minutes	1 hour	1.5 hours	2 hours
