

## 5.2 DASHING AROUND

YEAR  
5

**Objective:** Divide numbers mentally drawing upon known facts.

### Instructions

1. Create 4 stations spread around your activity area.
2. At each point put a number on a piece of paper: 6 at one, and 7, 8 and 9 at the others.
3. Run from one station to another, noting one division fact for that times table each time, e.g.  $12 \div 4 = 3$ ,  $12 \div 6 = 2$ , etc.
4. Continue for 10 minutes.

### Challenge

Add further stations with 11 and 12 as the headings, and continue to visit each station in turn adding further division facts to each sheet until you have 12 facts on each sheet.
