

Wednesday 20<sup>th</sup> May 2020.

Complete the White Rose Maths sheet on our class page ( Lesson 2  
- Add 2-digit and 3-digit numbers  
- crossing 10 or 100)

Complete the 'Read with ERIC' sheet on the next page.

Design and draw a new hairstyle for anyone in your house.

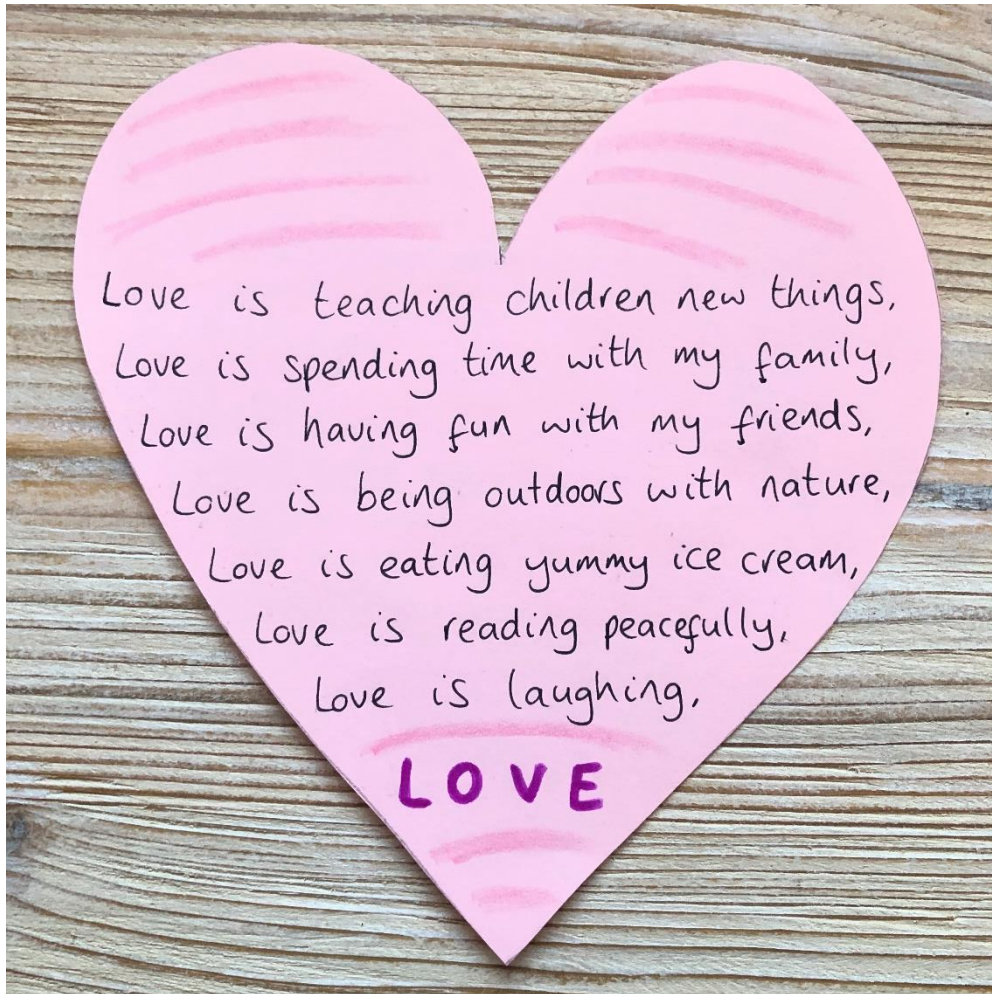

Create a simple poem called 'Love is'. Look at my example on the next page for help. The poem doesn't need to rhyme but all lines must start with 'Love is' and should include all the things you love!

<https://www.bbc.co.uk/bitesize/tags/zmyxxyc/year-3-and-p4-lessons/1>

BBC daily teach - **Science** - Friction and Resistance (watch video and complete activities).

Do something kind for someone. This could be a job, or giving someone a compliment, or helping a family member in some way.

## My 'Love is' poem:

## Read with ERIC:

### A Very Unusual Winter

Children across the country splashed and frolicked in the paddling pool, wearing their swimming costumes and thick streaks of sun cream. Windows were wide open, fans were out of stock in most high street shops and the ice cream van hadn't made so much money in ages. It was the hottest day the United Kingdom had seen in over thirty years... yet it was the 21st December.

For as long as anyone could remember, the 21st of December had been an icy, cold day. Commuters walked to work, wrapped up tightly in thick coats and scarves, past chimneys that plumed with thick, white smoke as families gathered around the fireplace to keep warm... but not this year. Something very unusual seemed to be happening and one man - Simon Thomas - thought he knew why...

'... chimneys that plumed with thick, white smoke'. In this sentence, what does 'plumed' imply about the amount of smoke?

What date was the hottest day the UK had seen in over thirty years?

Why were people shocked about the weather?

What do you think that Simon Thomas may do next?
