

Red Class News

Friday 7th June 2019

It has been an exciting first week back after half term and who could believe that there is only one half-term left before Red Class go into Year 1! Our new topic is animals and in particular this week we have been looking at the type of animals that can be found in the zoo. Next week we are looking at a brand new habitat—jungles.

This week in maths we have started to look at adding numbers together and the symbols = and +.

Mazey Day shout-out!

As part of our Mazey Day celebrations, the school's image will be based around the ocean and the issues with plastic pollution. As part of this Red Class will be making fish out of large plastic bottles.

So if possible could the children bring in any large plastic bottles (e.g. a 2 litre bottle of Pepsi) into school so we can build up our stocks?

Maths weekend challenge:

Tell a grown up what is 'one more than' the following numbers: 2, 4, 6, 8, 10

Special challenge: Can you write the number sentence $4 + 4 =$ and tell a grown up the answer?

If possible, could any spare socks from school be returned as we are running desperately short. Also, if there are any unused spare socks at home that could be donated to us this would be greatly appreciated

Writing weekend challenge:

Can you write a sentence about an animal of your choice that includes an adjective?

Special challenge: Can you write a sentence that includes the word 'and'?

Could you please check in the morning that your child is not bringing any toys from home into school? We are having to hold onto the toys for the entire school day as they are distracting the children, getting lost and/or broken.

This also applies to money that children bring into school for milkshakes at dinnertime. We are finding that when children come to school with them in their pockets these coins are going missing which is causing upset. Can children have this money in their bookbags/ lunchboxes or be given straight to an adult to keep safe?

Thank you

Have a lovely weekend,

Mr Savage, Miss Graham, Mrs Rudlin and Miss Reeves.
