

Wednesday 6th May 2020.

Visit

<https://whiterosemaths.com/homelearning/year-3/> and start Summer Term - Week 3. Watch the video and complete the activity in your home learning book.

Complete the 'Read with ERIC' sheet on the next page.

Science - magnets!

Investigate the statement '**All metal is magnetic**'.

Test some metal objects around your home. What do you notice? (Remember, not everything silver and shiny is metal!)

Read for at least 10 minutes.

Write a list of all the things you would like to do/learn about when we get back to school (and send it to Miss Mathews if you can!)

Draw a big scribble on a piece of paper and colour in all the sections in different colours.

Read with ERIC:

Emma's Puppy Problem

As soon as she turned eight years old, Emma knew that she was old enough for the responsibility of looking after a puppy. She had even promised to start doing all of the things you would do with a dog to prove to her boring dad that she could. Emma knew she had to go on long walks twice a day, although she did not get out of bed before midday. She watered the plants in the house every day to prove that she could keep something alive, although she watered them a bit too much. Emma also knew one thing for certain: she would not be picking up anything that the dog left in the back garden. Not once. Not ever. That was her dad's job.

Who is stopping Emma from getting a puppy?

What makes you think that Emma is not ready to get a puppy? Use evidence from the text.

Why do you think that the author describes dad as 'boring'?

Summarise the main point of this story in 20 words or less.

Miss Mathews' scruffy version!!
