Making predictions
(predictions = guesses)

Have a good look at today's picture.

What do you think might happen next?

I wonder....how many different predictions
(guesses) can you think of?

Challenge: Can you think of some different
things that might happen next, which might
not be expected?

Use the 'Making Predictions - modal verbs
and adverbs' sheet to help you to use
different sentence starters and verbs. There
are some sentence ideas at the bottom of the
sheet to help you get started.
