

PATIENCE

What is the robot doing?

Is it looking at the moth?

Why is the light bulb on his head lit up? Has he had an idea?

Is the shape of the wire inside the lightbulb important?

Does this robot have any friends or family?

Can he feel emotions? If so, how do you know? Which ones?

How do *you* feel towards the robot? Why?

Why is this image called 'Patience'?

Write about a time when you had to be patient. How did it feel? Was it worth it?

Is being patient a good thing?
